PROFESSIONAL SUMMARY

BCA student transitioning from web development to Artificial Intelligence and Machine Learning (AI/ML). Knowledge of basic Python, JavaScript, HTML, CSS, React.js, and SQL, with hands-on practice building web applications and a basic Node.js server. Seeking an AI/ML internship to apply programming and problem-solving skills while developing practical experience in Python, data analysis, and machine learning.

TECHNICAL SKILLS

Programming Languages: Python (Basic), JavaScript, C (Basic), C++ (Basic), PHP
Web Development: HTML, CSS, React.js
Databases: SQL, MySQL, Oracle
Tools: Visual Studio Code, Microsoft Visual Studio, Turbo C++

PROJECTS

Invora - Inventory and Invoice Management System

- Retail-focused inventory and invoice management system concept for supermarket-style businesses, intended to support product inventory management and invoice creation and tracking.

Weather Forecast Web App

- Built a web application that lets users enter a location and view weather information. Implemented user input and weather-data display using HTML, CSS, and JavaScript.

Todo List Web App (Local Storage)

- Created an interactive to-do application with add, delete, and persistent-storage functionality using JavaScript, DOM manipulation, and browser Local Storage.

Basic Node.js Server

- Created a simple Node.js server to handle HTTP requests and serve static files, practising backend and request-response fundamentals.

EXPERIENCE

E-commerce Operator | **June 2025 - May 2026**

- Managed product sourcing, inventory, packaging, order processing, customer support, and online marketplace operations.

Data Entry Operator | **March 2022 - June 2023**

- Entered exchange data and maintained transaction records for two-wheeler batteries at an Exide Industries dealership.

EDUCATION

Bachelor of Computer Applications (BCA) | **2024 - Present**
Sutex College of Computer Application & Science, Surat

12th Standard - Commerce | **2024** | **84.29%**
Hansvahini High School, Surat

10th Standard - General | **2022** | **79%**
Hansvahini High School, Surat

ADDITIONAL SKILLS

Problem solving, teamwork, communication, time management, planning, and organization.

LANGUAGES

English, Gujarati, Hindi
